

DESIGN STUDIO LOOKBOOK

Diplomat Closet Design Lookbook

INTRODUCTION

Our beautiful new design studio in Downingtown is the perfect way to inspire your next design project. While we can certainly come to you for a consultation, visiting our studio in person offers a unique experience. From the moment you step through the door, you'll be met with chic designs that showcase the many ways we can turn your dream space into a reality.

Already have an idea in mind and just need to finalize the details? Not sure what you want exactly and need some inspiration? Whatever the case, our design studio can help steer you in the right direction.

When you visit the studio, our design experts can help walk you through the process, from choosing the right layout and colors to making a purchase and having your chosen design installed. Whatever you need, we're here to help.

In this lookbook, you'll get a sneak preview of what you can expect when you visit the design studio and how Diplomat Closet Design can help elevate your designs.

THE PERFECT PANTRY

Our pantry designs will have you swooning over the functional kitchen of your dreams. With a well-organized pantry, cooking becomes a delight. However, the perfect pantry doesn't just have to be about organizing your food. With our customizable designs, you can personalize to your heart's content.

Love to entertain? Design a pantry to organize all of your special dinnerware and table decor. Living a healthy lifestyle? Create the perfect organization for your supplements, protein bars, and powders. Love wine? Turn your pantry into chic wine storage.

We even have beautiful butler pantry designs for putting your best dinnerware accessories on display, with features like glass inserts, roll-out trays, and crown molding.

BEAUTIFUL BEVERAGE BARS

Beverage bars are the perfect addition to any home or office space. Whether you want to elevate your morning ritual with a chic coffee or tea bar or simply want to keep all beverage options easily accessible in one organized space, a beverage bar is the way to go.

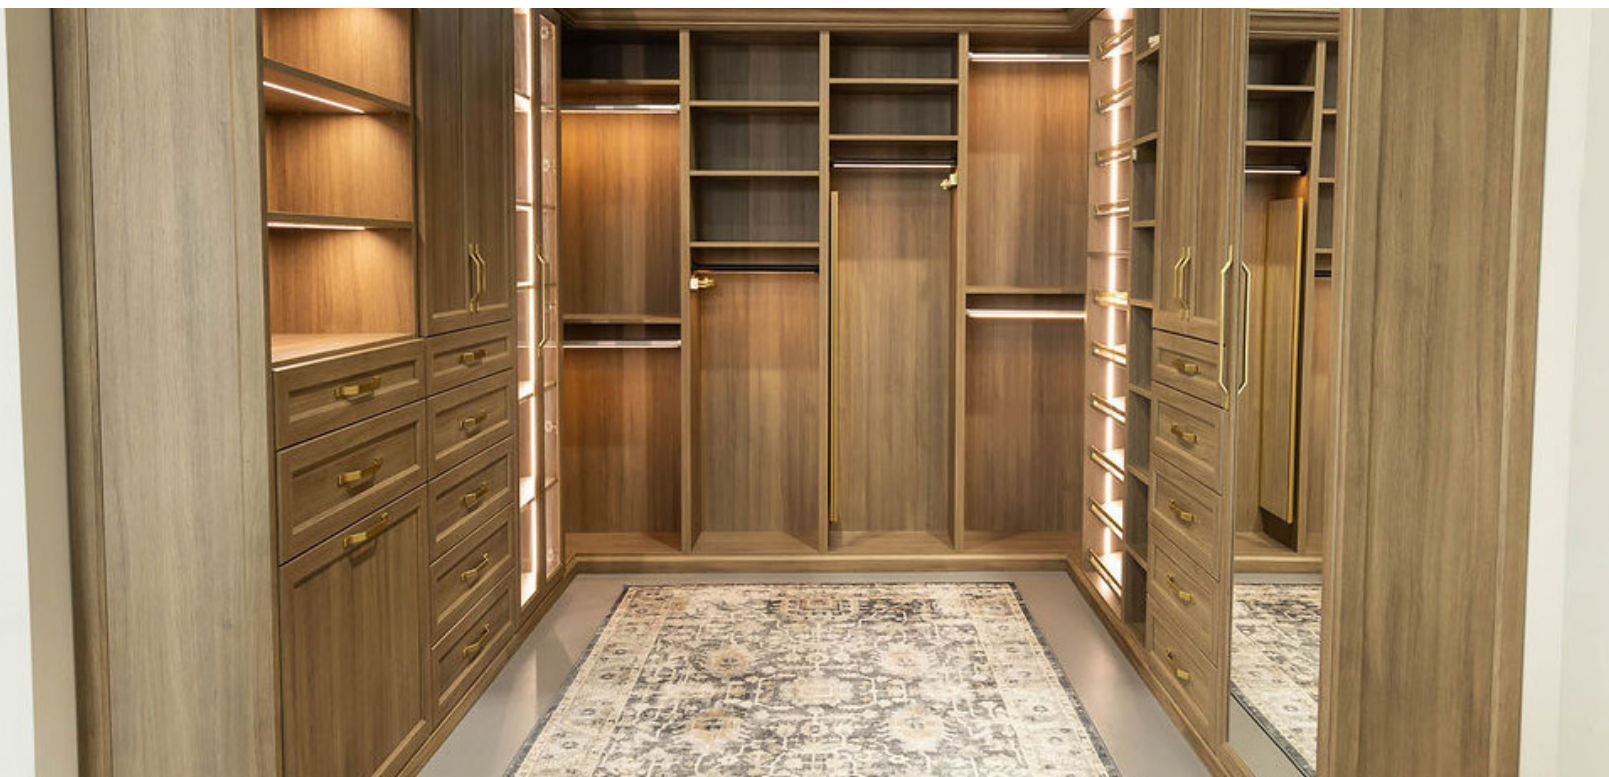

We offer a range of customizable options to create the perfect beverage bar to suit your needs, including various cabinetry, countertops, drawers, and hardware selections. We can also include customizable features, such as spaces for mini beverage refrigerators, double bin trash pull-outs, and recessed electrical strips for beverage appliances.

CLOSETS GALORE

While we pride ourselves on all of our designs, closets are our bread and butter. At our design studio, you'll find many closet designs for organizing all of life's essentials. Whether you want to store linens, shoes, accessories, decor, clothing, heirlooms, craft supplies, and more — we've got you covered.

We have luxury options for a more elegant design with sleek glass doors and mirrored cabinetry or opt for something more natural with a wood finish and modern metal hardware. You can also go with a reach-in open design, which is great for kids' rooms, a full master bedroom walk-in, or something more understated for simply tucking things away.

Our closet options are vast and fully customizable, with a wide range of color options, finishes, sizes, and features, including jewelry trays, pull-out mirrors, shoe fences, scarf racks, valet rods, adjustable shelves, and more.

ELEGANT ENTERTAINMENT

Entertainment centers are often the focal point of living rooms and family rooms, so why not make a statement with a beautiful, custom-built entertainment piece? Whether you like to snuggle up for a movie night, have people over to watch the big game, or are entertaining the kids with their favorite cartoons, the right entertainment center can set the stage for a memorable experience.

Like all of our other designs, our entertainment centers can be fully customized to suit your needs with a wide selection of color finishes, door and drawer styles, hardware, and design features, including crown molding and decorative end panels.

BREATHTAKING BOOKCASES

While some people like to feature digital entertainment, others prefer to feature their books and decor. With a custom-built bookcase, you can do just that. Our design studio shows the many different ways you can organize and display your books, knick-knacks, and decor with various open shelving and cabinet combinations.

EFFICIENT LAUNDRY ROOMS

With our laundry designs, doing the laundry will go from being a dreaded activity to a cathartic routine. Most laundry rooms are cramped and even outdated, which makes you want to spend as little time in there as possible. But with a sophisticated and organized system, getting through the day's laundry is a breeze.

We can do open and closed shelving and cabinets, countertops for folding, pull-out hampers, bars for hang-drying, and cavities for fitting in your washer and dryer or even a sink. Whatever your dream laundry room looks like, we can help you bring it to life.

FUNCTIONAL MUDROOMS

Mudrooms are trending right now — and for a good reason. Not only do these spaces improve the functionality of your home by helping keep things more clean and organized, but they can also increase your home's value. Our design studio shows how you can turn an unutilized entryway space into the perfect mudroom.

There are so many ways you can custom design a mudroom to fit your home and unique needs. Use it to keep your shoes and coats organized, for easy access to backpacks, gym bags, and sports equipment, or you can even turn it into the ultimate pet room with built-in crates, washing and feeding stations, and treat and toy organization.

STUDY DESKS AND OFFICE SPACES

Whether you are looking to convert an entire room into an office space or create a study desk that fits into another room, we can help. Home office spaces have become a growing trend as more people have turned to remote work. However, custom-built offices or study desks are also great for kids who are homeschooled or need a zen place to focus on homework.

You can even use our design options to create the ultimate craft room or setup for your small business. Customize cabinets, desktops, drawers, shelves, bookcases, countertops, and more to fit your home office or hobby room needs.

SUPERIOR GARAGE ORGANIZATION

The garage is another one of those often overlooked spaces that is primed for opportunity. Typically messy and chaotic, the right storage system can turn your garage into an organized dream.

Our custom garage designs can transform your space, making it more functional and easier to navigate. You can create custom designs to organize your tools, extra food and drinks, toys, seasonal decor, and recreational equipment. You can even turn your garage into a showroom for your prized vehicles, a workshop space, or even a home gym. The possibilities are endless.

HERE'S WHAT PENNSYLVANIANS ARE SAYING ABOUT US

"We loved that Diplomat was a local company and that our designer, Sam, listened to our closet needs for our home. We had 6 closets that were a blank slate when we moved in and she gave us the best options for each one. From our master closet to a very small hall closet on our 2nd floor, each one was designed specifically for what we needed to maximize our space and keep us organized. The whole process from start to finish was seamless and such a positive experience all around. The installers are Diplomat employees which was something that was important to us as well. We would highly recommend Diplomat!"

- KELLY D.

"Had a great experience with Diplomat Closet Design. The process of getting an appointment was so easy! Makenzie helped me figure out the best design of the room to fit all of my things. I would use them again for sure."

- ELECTRA. P

"We had a great experience from beginning to completion. They came out and took all the time we needed to come up with the perfect custom design for 2 closets. The install went perfectly and we love our closets! We highly recommend them!"

- IVANNA P.

"Diplomat Closet Design created a plan for our master bedroom closets. We did some remeasuring and planning to optimize the spaces, and they did the rest! We sat down and discussed shelves, racks, drawers, extra options for ties, belts, drawer inserts, and more! The process was easy and the installation went smoothly! We love our closets! Check out the new showroom to get more ideas!"

- WILLIAM G.
