Diplomat Closet Design Lookbook

INTRODUCTION

Whether you're organizing items that you use every day or storing things that only come out a few times a year, the perfect closet design is essential. Your clothes, shoes, heirlooms, or decorations all need a designated space. And no one wants to struggle with locating an item inside a closet full of clutter.

A redesigned closet can transform your space from a cluttered mess that hides behind closed doors into a tranquil oasis where you find yourself wanting to spend time. When everything has a place and that place matches your style and personality, your closet becomes an extension of your home.

Our lookbook is full of things to inspire you as you plan your dream closet upgrade. See what's new and upcoming in closet design and find the perfect closet to match your life.

TECHNOLOGY TRENDS FOR IDEAL CLOSET CONVENIENCE

As more homes are becoming Smart Homes, we find bits of technology emerging in every room. Even your custom closet can be optimized with LED lighting or motorized closet rods. You can highlight your prized possessions or utilize every inch of space. Let our designers know what touches you're looking to incorporate, and we can design your closet around those special touches.

FILL YOUR CLOSET WITH THINGS THAT SPARK JOY

The KonMari Method of organization has been popular for many years. But does it work? And will it work for closet organization? With a custom walk-in or reach-in closet, you can cut down on the clutter by having a specific place for all of your belongings that spark joy.

DESIGN YOUR LUXURY FASHION HAVEN

Whether it's a designer handbag, a custom ballgown, or a one-of-a-kind wristwatch, these items can't be stored just anywhere. If you find yourself living for fashion and filling your home with all things luxury, you need a custom closet to house and display those prized possessions. Designing a closet filled with the finest materials and custom shelving keeps your closet in line with your fashion-forward lifestyle.

DON'T HIDE YOUR STYLE

Closets often feel separate from the rest of the home. Hidden away in the corner of a bedroom or the back of a hallway, they are often overlooked in your home's design. But your closet can be a cohesive part of your home. When you design your custom closet, choose the colors, materials, and styles to make your closet feel like an extension of your home.

CREATING LUXURY WITH COLOR!

Speaking of color, certain paints and stains just scream luxury. Your walk-in or reach-in closet can look like it belongs in a magazine or the home of a celebrity with the right colors and finishes. Whether you choose gold finishing touches or all-black shelving, your custom closet can be just as sophisticated as the possessions that you fill it with.
